Mines and Prospects--Furnaces and Mills

Rich Ore From the Black Diamond

Assays Show Values From \$89.50 to \$16,000 Per Ton; Average Assay, \$234.

Epecial to The Tribune. Fineh, half owner of the Black Diamond mine on the upper Virgin river, brought amples of free gold ore into Caliente this week, containing high values in white, honeycombed formation, very britile and fairly glistens with the rich yellow metal. Assays from this ore show from \$85.00 to \$15,000 per ton. An average assay across the eighteen-inch vein thows values of \$224 per ton, while across the four-foot ledge the average will teach \$35. Mr. Finch is a citizen of Rossiand, B. C. and has already located and add a splendid group, the Golden Calf group of mines in the same district in which the Black Diamond is located He seelved \$4000 cash for the four mines comprising the Golden Calf group, and lass now completed \$15 feet of development work on the Black Diamond.

M. J. Conners and Dick McWethy, own. hite, honeycombed formation, very brit-

M J Connors and Dick McWethy, own-re of the Grey Goose group of gold-silver laims off from the upper Colorado river, bout five miles, and on a first-class road eading to Los Vegas, have just received usays of \$16. per ton gold and \$25 ounces liver per ton from ore taken from a five-oot vein of quartz at a depth of \$15 feet.

One of the best strikes ever made on the line of the San Pedro road was reported this week by Mack Fisher, third owner of the Golden Fleece group of claims, mar the upper Virgin river, south of Moapa. Mr. Fisher states that while striking in the McKinley mine shaft on a furce-foot ledge, which carried a four-lich vein of high-grade gold, at a distance of 40 feet from the bottom of the shaft they ran into a body of decomposed porphyretic quartz, Herally filled with coarse force gold. They took a bucket full of this shuff to the surface, and after pounding it up in a mortar, washed out about abo g it up in a mortar, washed out about pounds and got therefrom six ounces

IDAHO PROSPECTS.

Developments in Big Properties of the Sister State. The King of Pine Creek Mining com-

imny is developing a promising group of five claims along Pine creek, three and one-half miles south of the Pine creek spur of the O. R. & N. railway. For a distance of over ten miles along this creek the ground is well covered with locations, on many of which development is under way. Among these are the bouglas, Highland Chief and Ross Gulch. From the Bobby Anderson near by, on which there is a 39-foot shaft, there has been extracted considerable shipping ore. Quartz is the predominating formation, but toward the upper end there appears considerable state. To the east, distant about three miles, are the mines of the Punker Hill & Sullivan company. The ledges appear to be nutherous and well defined and the abrupt hills afford good unnel sites. There is an abundance of timber for mining and fuel purposes. From Pine creek and its feeders there is ample water supply available. Four well defined ledges are tracoable through the king of Pine Creek group, three claims overling the east-west strike of the leads. One ledge is being developed by an addit new in about 290 feet, with a surface dipth of over 100 feet. In the face of his tunnel the edge is over cight feet in width, with fairly well defined quartzite walls. The gangue is a quartz and martzite, associated with more or less syritic and arsenical iron. Through the cast'tz as well as the iron, there are numerous stringers and bunches of galena. Near the portal there was broken through some high-grade carbonate ore, seasying as high as 48 per cent lead and two ounces silver. mny is developing a promising group of five claims along Pine creek, three and Faying as high as 45 per cent lead and

we ounces silver.
The Sunset mine in Northport has sunk
100-foot shaft and is now in ore that
uns \$75 in gold and silver, the principal ifue being gold. The Big Buffalo, in the Buffalo Hump

The Big Buffalo, in the Buffalo Hump district, has encountered much higherade ore in the new tunnel now being driven, which is in 1000 feet. The stamp still of the company will be removed to the mouth of the tunnel on Sheep creek within a few months.

The Sunnyside mine at Thunder mountain, idaho, is the scene of a great deal of activity at the present time. More man 20 men are employed there. The company has expended many thousands of dollars in building roads, and the mine is now being eculpped with a forty-stamp mill.

The property that the Guggenheim Ex-

The property that the Guggenheim Extingation company is operating on Royle incontain is opening up splendidly. After developing the vein in the upper works, that showed a body of zinc-lead ore four feet thick, a deep adit was begun. After civing this about 200 feet, ore was ercontered and the drift zoon cut into a solid body of zinc for afty feet. Then r cross-cut was begun. This cross-cut is in between forty and fifty feet, all in ore, and with no indication of a foot wall. The width of ore is therefore unacertained. Preparations are making on the surface for a much larger force than is now employed. Only fifteen men are at work at present.

BOOM IN BULLFROG DISTRICT.

Prospectors Are Numerous Number of New Strikes.

TONOPAH, Nev., Nov. 20 -Dr. L. E Benson, treasurer of the Bullfrog Mi-Benson, treasurer of the Bullfrog Mi-cing company, reports a lively condition of affairs in the Bullfrog district. There are now about 50 men in Bullfrog and vicinity, and probably another hundred in other parts of the district. The Bull-irog Mining company is employing fif-teen men on its three groups of claims. The shaft which has just been started on the Laid Mountain group is down seven feet, at which point the ledge is strong and well-defined, showing free gold for the entire width of the shaft. The com-pany is also securing good pannings on

the entire width of the shaft. The com-pany is also securing good pannings on the west side of Red Mountain. A number of new strikes have been made during the past ten days, the most promising of which occurred at Indian forings, four miles north of Ladd Moun-ain. A large ledge has been uncovered from which excellent pannings are ob-tained.

cained. On the Bell property, which adjoins the Ladd Mountain group of the Bullfrog company, the shart at a depth of eight feet is producing ore which shows large quantities of wire gold. The ledge is eight feet wide and carries good values from wall to wall.

Activity in Reveille District.

Herman Relachke reports great activity in the Reveille district. The Southwestern Nevada Mines company has thirty men regularly employed, and large quantities of ore are being extracted. The big cave is showing most satisfactory developments, and an immense body of ore, averaging 65 per cent lead and fifty ounces in silver, is being opened up. Mr. Reischke states that about twenty niners are employed in neighboring properties. The Southwestern Novada company has twenty-five carloads of ore on the shipping dump in Tanopah, and this product, which runs about 579 a ton, is being loaded at the rate of three cars Herman Reischke reports great activity in the Reveille district. The Southwest product, which runs about \$79 a ton, is being loaded at the rate of three cars a day,

Court Stops Sale of Mines for Taxes

One Hundred Cripple Creek Companies Benefit-Validity of Tax Attacked-Hearing Today.

COLURADO SPRINGS, Nov. 20 .- The oss of the non-producing Cripple Creek by the issuance of tax deeds by the Treasurer of Teller county next Friday, has been averted by the action of Judge

has been averted by the action of Judge R. E. Lowis, who has upon petition, issued a temporary injunction restraining the issuance thereof. The order is effective until tomorrow at which time arguments will be made, and the attorneys for the plaintiffs hope to make the injunction permanent.

The case begun is entitled the Acorn Gold Mining company et al. vs. Duncan J. McNeill, Treasurer of Telior county. John Doe, Richard Roe and others. The petitions include the 215 mining companies interested in the question.

The application for an injunction was made by Attorneys H. G. Lunt and K. C. Schuyler to restrain the issuance of final deeds as a result of the tax sale in November, 1961, following the delinquency of the 1960 taxes. The validity of the tax is attacked upon the ground of non-conformity.

Producing mines are taxed upon their

conformity.

Producing mines are taxed upon their gross production, the levy being upon two-thirds of the amount, but the acreage tax upon the large area of non-producing properties, which, if sustained, will cause the ruin of a goodly proportion of the 215 petitioning companies, is claimed to be illegal.

News From Tintic.

News From Tintic.

The Oasis Mining company, working a group of claims in Drum Mining district, is reporting some good shipments recently, says the Miner of Tintic. The ore is reported to run about 20 per cent copper and about 20 in gold. The mine is in good condition and work is progressing steadily.

The May Day mine has just completed its pipe line for air from the new compressor at the Uncle Sam holst. This will enable them to work their property nore economically and should help them to prepare some more dividends for the stockholders.

The Uncle Sam mine is now working on compressed air, they having just placed a new compressor in their new holst. With this addition to their plant they will be able to prospect their ground rapidly, and should in a short time reach the May Pay ore body, where it crosses the line into the Uncle Sam ground.

The Orient Mining company begins work with good prospects of continuing developments all winter. They have an excellent showing of ore, and it should develop in a honsanta equal to the Scotla mine of years past.

overlent showing of ore, and it should overlent into a bonanza equal to the Scotla mine of years past.

J. M. Wheeler and his associates have commenced work on the Blue Jay group of claims in the near vicinity of the Orient and Scotla mines in West Thinto. They have a very large group of claims, and will spend considerable money in and will spend considerable money in their development. They have an excellent showing but ore so far is a little less than shipping value. They hope through this development work to cut

a paying vein.

Development is soon to begin on the Frairie Beil group of claims, one of the most promising groups in West Tintle. They have a vein of ore opened to a depth of about seventy feet, and have drifts on the vein for 100 feet. The vein has shown values of over 260 counces all ver and a high per cent in lead. There is nearly a shipment of high-grade ore now hoisted and at the shaft. The development work this year should place this praperty on a paying basis.

Charge Woman With Horse-Stealing.

LA PORTE, Inc., No. 20.—What is believed to be the first arrest of a woman in the State of Indiana charged with horse-stealing is reported from Fremont, a little hamlet in Steuben county, where Mrz. Cora McCone is in custody. The crime of which Mrs. McCone is alleged to be guilty was committed October 22, 1862, when the voman is said to have visited the livery-barn of Frank Barber, in Quincy, Mich., and hired a horse, stating that she would return it the following day. The rig was never recovered and trace of the woman, despite vigorous search, was not secured until Barber positively identified Mrs. McCone, who is the wife of a wealthy farmer, as the woman who engaged the rig, and he declares that he will convict her in the courts of horse-stealing. Charge Woman With Horse-Stealing.

Had to Pay Tariff Tax on Gowns.

Had to Pay Tariff Tax on Gowns.

NEW YORK, Nov. 20.—Omitting to declare a lot of handsome dresses when she arrived on the Kaiser Wilhelm der Grosse, after a long stay abroad. Mrs. Arthur Caton, a well-known society woman of Chicago, paid duty on them later amounting to nearly \$700. Mrs. Caton came from Europe to attend the horse show, and her trunks contained some stunning costumes from Paris. To the customs officials who took her declaration she did not mention these gowns, and when an inspector began to delive into her large trunks he immediately called an appraiser. The matter was satisfactorily adjusted by the payment of the duty.

President No Longer "De-light-ed." WASHINGTON, Nov. 20.—President Rossevelt no longer says "de-light-ed." When he found almost every one who ealied watter to hear him chon the word into three syllables and then smiled, he quit using it. His replies to friends who congratulated him on his election show he did not once express his pleasure in the old familiar way. He now says, "I am very, very happy," or "It was most gratifying, most gratifying."

Quartzite May Equal the Jumbo

Diamondfield Jack's" Gift to Judge Powers Proves to Be of Great

GOLDFIELD, Nev., Nov. 20.-That line greater than the wonderful Jumbo may yet be opened up in the Goldfield dream of. But, from the present showing in the Quartzite claim of the Dianondfield Mining company, such is a possibility. At a depth of thirty-six feet in the Quartzite the ledge has been cross the Quartzite the ledge has been cross-cut for thirty-six feet and only one wall in sight. The astonishing claim is made that this whole thirty-six feet will aver-age over \$200 per ton. A streak four linches wide assays \$25,000 to \$30,000. An-other rich streak six feet wide will av-erage nearly \$300, while the ore botween the different streaks runs from \$30 to \$30 per ton.

Judge O. W. Powers on Saturday be-isme interested in this property through a gift of 2500 shares from "Diamondfield" lack Davis

a gift of 2500 shares from "Diamondfield"
Jack Davis.

The donor was convicted of murder by Judge Powers and was three times sentenced to be hanged. After the conviction Judge Powers came into possession of evidence showing the man's innocence. He's at once began to labor to prove it, and wrought so well that he secured a free paraon for the man whom he had sent into the shadow of the gallows. When the prisoner was set free the Judge gave him money to secure a new start. "Diamondfield" discovered Goldfield, with all that the name implies. He was quoted in The Fribune some time ago as having expressed the intention of muking Judge Powers a gift of valuable mining stock. The news of the strike on the Quartitie follows the announcement of the gift.

Mining Notes.

The Inter-Ocean company, operating in Gold Basin, in La Sal mountains of Utah, has its mill ready and will commence operations in about forty days. It has a capacity of 166 tons daily.

Results of developments at Red Wing Extension continue of a most gratifying nature. A greater tonnage of good miling ore is on exhibition, and only sinking to water level is needed to insure the speedy installment of a concentrator at the mine.

the mine.

With its two Wiffleys installed the Ohio mill has eight in operation, also a Wilfley slimer. From 10 to 120 tons of crude ore treated daily. This is not a material increase, but the product is much more satisfactory. A better grade of ore is being treated, compared with that of a few weeks ago, and there will be further improvements when the lower level is drawn upon. At a depth of 100 feet it is stated that good body of ore has been encountered

a good body of ore has been encountered in the Little Pittsburg. The ore is galena, carrying perhaps ten ounces in silver and some gold. The body will be exploited at depth.

pioited at depth.

The Bryan group of claims in the Alta district have been bonded to Measura. Chambers and Craig. Extensive development is planned at once. Development is also under way on the Miller and Fittsburg groups in the same district.

It is reported that the owners of the Sharp mine at Stockton have decided to recome work where the property Joins courp mine at Stockton have decided to tesume work where the property Joins the Honerine and with a little develop-ment done, is reported as making good returns. To Import Irish Servants.

To Import Irish Servants.

MEMPHIS. Tenn., Nov. 20.—The Housekeepers' club, the leading woman's orgaulzation of Memphis, has a plan for
solving the servant-girl problem in this
section. It is nothing less than the importation of Irish girls of respectable
family from County Longford, Ireland.
The movement is superintended by Miss
Mary McNabb, a clubwoman, late from
Detroit, Mich. The club will youch to
the Immigration bureau in New York for
the employment of the girls at an average wage of 31 per week. The girls are
to pay their own fare to America. The
first step will be the immigration of
twenty girls, who will be given positions
in private families in Memohis.

NOTICE TO WATER-USERS.

State Engineer's Office, Salt Lake City, Utah, Nov. 17, 1994.

Notice is hereby given that C. H. Gibbs, whose postoffice address is \$23 Third East street, Sait Lake City, Utah, has made application in accordance with the requirements of chapter 100 of the Session Laws of Utah. 1992, to appropriate one-half (14) second-foot of the water flowing from Bay City mine tunnel, which naturally flows into Little Cottonwood creek, in Salt Lake county, Utah, Said water is to be diverted by means of a flume and pipe, at a point which bears approximately south 65 degrees east, and is distant about sixteen hundred (1600) feet from the southwest corner of the southeast quarter of section 32, township 2 south, range 3 east. Salt Lake base and meridian, from where the water will be conveyed through said flume and pipe for a distance of about four thousand (400) feet, and there used from January 1 to December 3; inclusive, of each year for milling lead, silver and copper ores at the Superior Alta mine, situated in Little Cottonwood mining district, and to provide water for steam boliers, for fire protection for the plant and for the domestic use of the employees of said mine. About five-hundredthy 66-100 of a second-foot of the water will be consumed, and the remainder of it will be conducted to a settling pond, where it

will be clarified and then returned to the natural channel of Little Cottonwood creek, at a point about four thousand five hundred (1600) feet southwest of the point of diversion.

All protests against the granting of said application, stuffing the reasons therefor, must be made by affidavit in duplicate, and filed in this office within thirty (30) days after the completion of the publication of this notice.

A. F. DOREMUS.
